CHAMBER OF COMMERCE

The Corsicana Chamber of Commerce will launch the annual membership drive in a very short time. systematic campaign is being community will be given an opportunity to join this organization.

And every citizen should become member of the chamber of comactive member.

The chamber of commerce has in the past accomplished much in the interest of Corsicana and Navarro county and much more will be accomplished in the future.

The officials of the chamber hav worked out a development program for the coming year for the growth and expansion of the city and county but to put these projects over there must be co-operation and unity of purpose The entire citizenship must pull together and the chamber of commerce offers the most satisfactory vehicle for the city and county to ride into the future on the crest of the wave of prosperity.

But to accomplish anything evervone must do his or her own particular part.

Also when it comes to city and community building all political and religious differences must be for gotten as well as personal enmities. City and community building is the chief object of the chamber of commerce. It takes concerted action on the part of the citizenship to accomplish this end.

Corsicana should have one of the no doubt when the membership drive is over this year the local organization will rank second to none.

Join the chamber of commerce velopment of Corsicana and Navarro county.

DAWSON PLANTS TREES

Dawson, a thrinving Navarro county town, is offering a fine examule the citizens of Corsicana would do well to follow. In a rethe following appeared:

"Washington's Birthday was fit tingly observed in Dawson. Business, was suspended Monday afternoon between 1 and 4 o'clock, also all groups of taxpayers and there the school received a half holiday, is no discrimination. If that was last at \$1.00 per bushel. Not many left. and soon after dinner a good number of the business men and a large number of school children were at the Williams Park busily engaged in setting out trees. Forty-four trees were set at the Park on the east, south and west sides. Also 15 trees were placed by school children at the school building, and 22 set at different residences in town by home owners. We understand some 25 trees are yet to be set at the cemetery which will probably he done sometime this week. Let the good work continue."

If every organization in Corsicana would plant one or more trees each year much would be accomplished toward additional beautification of the city. A city cannot have too many trees and to get the best results some concerted tree planting program should be inaugurated.

EXPECT TOO MUCH

The Rev. Roy L. Smith in his "Sentence Sermons" in the Fort Worth Star-Telegram says "Some People seem to expect a column of many gallons could be made. publicity for an inch of service."

The above may be a "sentence" territory as any newspaper man will vouch. The seekers of free publicity and free space in newspapers are many. All manner of schemes are presented to "put something stated to be appropriate for spring. by" the editor. Large sums of Thus the styles are to remain abou money are spent annually in the the same. preparation of "free" copy which with a little close reading will disclose the advertising of some product or the exploitation of some know that the plot was called last Route 3. scheme o rperson. If this money time,

was spent in legitimate advertising the results would be far more satisfactory to all concerned. Howver, it is becoming more difficult every day for the seeker of free pace in the newspaper to "get his stuff over." as most of the publishers of the country are sponsoring a very active campaign against the free publicity seeker.

DEMOCRATIC GESTURES

King Boris of Bulgaria saved from jail a peasant who had stolen oats from the stable of a summer place owned by the monarch. "I cannot permit the prosecution of my poor neighbor," he is quoted as saying. "I am rich and he is poor; no wonder he wanted to load his wagon with my oats. He will live in neighborly relations with me in the future."

One gets an Arabian Nights picure out of that and visions Haroun, the Caliph, mousing through Bagdad in disguise doing good to the poor and experiencing adventures in plenty. One pictures him as a generous, open-hearted potentate because of the romantic tales about him, which are not borne out in history, the facts of which proclaim him to have been a despot who did not wince at cruelty.

To pardon a poor man who has stoleu from him is a, comemndable planned and every citizen of the act of mercy as well as a royal prerogative but it also is a gesture in the direction of democracy Bulgaria in recent years does not give evidence that the court has merce-not only a member but an been intelligently aware of the problems of the poor as a class, sufferers in a country that has been a political football. Perhaps a boon to an individual may be an indication that is it learning—at least the recipient will think so.

FOLLOWING ITS OWN LEAD

Congress has passed the new tax bill. It lops \$387.811.000 off the than the limit set by Secretary Mellon as the most the government! could spare of its revenues.

And congress cannot be chided for that. In fact there is a widespread feeling that taxes could be reduced even more. The charge in political circles has been made that the administration was unwilling to cut the tax bill to the bone because it wanted to cut some more next year, next year being close to a presidential conbeing close to a presidential con-

Not a beam has the Sunbeam

shed upon Corsicana, the largest city between Dallas and Houston. The nearest to a beam Corsicana has received is a slight pause and a whistle at the crossing. And that might be called a half-portion beam. Corsicana wants a whole, great, big shining beam of recognition from this crack train of the Southern Pacific Lines. Corsicana has been beaming on this road for many years with the golden beam of much business. The train has to stop here anyway-why not take on and discharge passengers.

Effective at once, the delivered price of all Chevrolet models is reduced. Chevrolet buyers will be given the beneift of the recent tax reduction though it does not become officially operative until March twenty-ninth. Thus for the third time since the first of this year, Chevrolet emphasizes its supremacy in dollar for dollar value.

First—Reduced Prices

Early in January Chevrolet announced sweeping price redductions.

Then—The Improved Chevrolet

Shortly thereafter the Improved Chevrolet was announced at these reduced prices. Instantly it met with such an increase in popularity that it became necessary to break all previous production records for January and February.

And Now-A Further Saving

Although the reduction is antomobile taxes does not become officially effective for some time, the full amount of this reduction is now passed on to Chevrolet buyers. Thus Chevrolet again emphasizes that principle of value on which it has built the greatest success ever attained by any manufacturer of modern gear-shift automobiles. The survey pointed out that less than two-thirds of the present bearing citrus trees have reached full production and that in Texas a large acreage of grapefruit has not yet come into bearing. It warned against materially enlarging present acreage in view of the fact that only 58 per cent of the Florida orange trees and 78 per cent of the grapefruit trees have reached a bearing age.

The survey conceded that freezes and a possible increased per capita consumption might offset a share of the increased production, but urged growers to consider careful-ly before increasing their acreages.
